Texas Economic Stabilization Investment Fund

TEXAS TRUST
TEXAS TREASURY SAFEKEEPING TRUST COMPANY

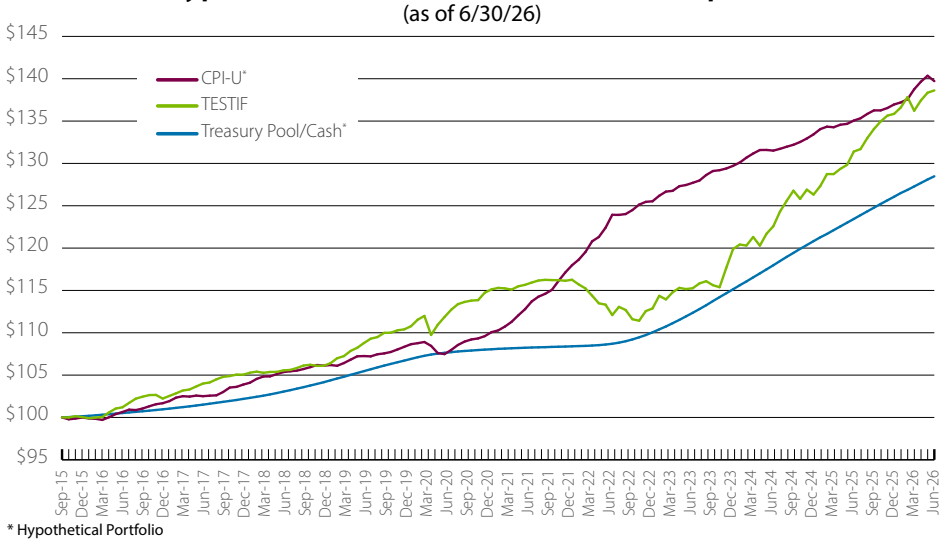

The Texas Economic Stabilization Investment Fund ('the Fund') was created by Section 404.0241 of the Government Code to invest a portion of the Economic Stabilization Fund (ESF) balance for a slightly higher return than the state's operating fund. The Fund has two primary performance objectives: 1) maintaining purchasing power; and 2) delivering returns in excess of short-term cash equivalents. Maintaining the Fund's purchasing power means achieving net returns over a full market cycle (3-6 years) that exceed inflation. Inflation will be measured using the annualized growth rate of the national Consumer Price Index – Urban (CPI-U) published by the Federal Bureau of Labor Statistics.
